KEY TO DIRECTORY

The Directory is arranged alphabetically by states and by colleges in each state. The places wherein the colleges are located are indicated in parentheses after each college. The names of the students are also alphabetically arranged by colleges. The index at the end of the Directory will take the place of the alphabetical list of all Japanese students.

Each name, if complete, should contain the following information: Family name and given name; class and major course in parenthesis; college address; birth place in parenthesis.

The Directory contains the names of students who were born in Hawaii and on the mainland of America, and other countries, although they are citizens of the United States of America. This is done for the sake of convenience; it has no political significance whatever.
